## General Standards Corporation REACH Statement

Under the definition of the REACH regulations EC1907/2006, General Standards Corporation is a producer of “articles”. REACH requires article suppliers to inform recipients if an article contains a Substance of Very High Concern (SVHC) in excess of 0.1% by weight. The EU announced on June 20th, 2016 an updated list of the candidate 169 SVHC chemicals.

The list can be found at:

[http://echa.europa.eu/chem\\_data/authorisation\\_process/candidate\\_list\\_table\\_en.asp](http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp)

Based on the material content certification’s provided by General Standards Corporations suppliers, none of these substances are present in the materials we use in our products, including packing and shipping materials. Therefore, General Standards Corporations products do not contain any of these SVHC in excess of 0.1% by weight.

General Standards Corporation will continue to comply with REACH requirements and notify customers of any change in article content.
