General Standards Corporation RoHS Statement

General Standards Corporation products comply with RoHS1 Directive 2002/95/EC if the product ordered is ordered with the "Lead free" option.

Example: PMC-SIO8-X

(The 'X' indicates the lead free option)

Specifically, the products contain less than 0.1% by mass (1000 PPM) in homogeneous material for: Lead (Pb), Mercury, Hexavalent Chromium, Polybrominated Biphenyls (PBB), Polybrominated Diphenyl Ethers (PBDE) and quantity limit of 0.01% by mass (100 PPM) of homogeneous material for Cadmium.

If the product **IS NOT** ordered with the lead free option (-X), then the product **IS NOT** considered RoHS compliant. It is the customers responsibility to insure that the correct product is ordered when purchasing.
