

1 The following is a list of Sub system Device identifiers used on General Standards products.

2 Generally, this information is only required if you are developing your own device drivers or

3 using some other method to access the boards and need to locate them on the bus.

4  
5 PLX Vendor ID: 10B5

6  
7 PLX Subdevice ID:

8 -----

|    |                      |       |
