## Product End of Life Notification

### VME-SIO4A

General Standards Corporation is committed to providing the highest quality products and services to our customers.

As a technology developer and provider, we understand that technology evolution allows our customers to establish and maintain competitive advantages, achieve operational efficiencies, and provide superior customer service.

At General Standards Corporation, we view product EOL as a part of the life cycle that drives new technology and product innovation.

All technology products eventually reach the end of their useful life requiring a business decision to discontinue availability and maintenance.

The **VME-SIO4A** line of products have reached a point in its life cycle where components are increasingly difficult to source.

As such, we must make a difficult business decision to announce the EOL on the **VME-SIO4A** line of products effective as follows;

<u>MODEL</u>	<u>EOL Date</u>
VME-SIO4A	05/25/2019

We will do our best to accommodate repairs or replacement for legacy products purchased before **06/15/2019**, but our ability to fulfill orders relies on component availability.

We will inform customers of component availability upon request.

We will not accept orders for any new **VME-SIO4A** products after **05/25/2019**.

As always, we have our Technical Support team and engineers, available to assist with any questions or concerns.

Please contact General Standards Corporation at 1-800-653-9970 to discuss optional products or if you have any questions or concerns.

Sincerely,  
General Standards Corporation
